556 Cushion-Ease® Solid Safety/Anti-Fatigue Matting

Available Colors: Black, Red

Good Better Best Superior

Cushion-Ease® Solid is a resilient rubber anti-fatigue mat with a solid top anti-slip surface texture that's easy to clean, and a unique support design to provide exceptional fatigue relief. Easy to snap together mats are compatible with NoTrax M.D. Ramp System for on-site custom configurations.

<u>Test</u>	<u>Test Description</u>	<u>*Results</u>
Compression Deflection	Test specimen is subjected to varying compression load levels and the resulting deflection was measured. The greater the deflection, the better the anti-fatigue properties. (Inches)	.063" (20 lbs/sq. inch) .112" (40 lbs/sq. inch)
Coefficient of Friction ASTM C1028-96	A neolite heel assembly with a predetermined load is pulled horizontally with a dynamometer to measure the force required to cause the assembly to slip.	.83
Abrasion Resistance ASTM D3884-01	Test specimen is subjected to the rubbing action of two abrading wheels under controlled conditions. Results measured in Weight loss (Grams)	12.32 Grams (9.4%)
Elongation ASTM D412	Test specimen is stretched at a specified rate until breaking point. The results are measured in weight needed to break, and % of size increase at breaking point.	116.5 lbs 241.3% (average of 5 specimens)
Hardness ASTM D2240-02	The hardness of a test sample is measured by means of a type A Shore Durometer. It measures the penetration of its specified indenter forced into the material under specified conditions	67

*All testing of NoTrax® floor matting has been performed by an independent testing laboratory.

Anti-Fatigue

Food Service

Food Processing

Welding

- Available in two versions:
 - Black: NBR (Natural Rubber) - grease resistant w/1 year warranty
 - Red: Nitrile Rubber - grease proof w/3 year warranty
- Thickness: 3/4"
- Weight: 3' x 3' (24 lbs)
- Stock Sizes: 3' x 3'
- Compatible with patented 551 MD Ramp System
